New Bodywork Module, fully integrated with MecaPlanning

For 360° real-time management
of your bodyshop from a single platform

Fast & reliable
appointment scheduling

Simpl & precise
work tracking

Centralised
information

Smooth
communication

A powerful solution

MecaPlanning

Online
appointment scheduling

Calendar
synchronisation

Connection to OEM
and third-party tools

With additional functions specific to bodyshop repairs

Dedicated bodyshop calendar

- ✓ **Differentiated tracking of operations** associated with the bodyshop, expert appraisals and mechanics
- ✓ **Automated scheduling** based on the severity of the impact and the skills available
- ✓ **Several weeks visibility** over the workshop load and promised return dates
- ✓ **Automatic task distribution** (dismantling, straightening, painting, reassembly)

Connection to costing and expert appraisal tools

- ✓ **Interfaces integrated** with bodywork cost estimation solutions.
- ✓ **Direct connection** to the extranets of national and local expert appraisal firms
- ✓ **Total flexibility** : any new portal connected on request
- ✓ **Centralised management** : a single tool for the entire bodyshop-expert appraisal chain

Real-time management of bodywork repairs

- ✓ **Real-time dashboard** to track repairs, delays and downtime
- ✓ **Intelligent planning** based on the skills and availability of technicians
- ✓ **Productivity tracking** : occupancy rate, remaining load, forward planning
- ✓ **Efficient communication** : key milestones shared with your customers

Online app for easy work tracking by technicians

- ✓ **Interface for each profile** : panel beater, mechanic, painter, etc.
- ✓ **Customer job tracked in three stages** : To do, In progress, Completed
- ✓ **Real-time updates** : operational status updated by the technicians themselves
- ✓ **Accessible anywhere** : on a computer, tablet or smartphone
